

Refining the Science of Environmental Protection

Spare Parts

AEREON provides the largest aftermarket service and spare parts selection in the global market. We can provide your organization with everything from chemicals to sophisticated assemblies and repair parts.

We maintain inventories and relationships with vendors and freight companies so that your commonly used parts are available for emergency shipping around the clock. There is no reason to let a \$200 part shut down your operation – we can get most parts to you the next day. Our goal is to provide the right part at the right time.

Coolant Blends

- VC100 100% Coolant
- VC8020 80% Coolant
 20% De-ionized Water
- VC5050 50% Coolant
 50% De-ionized Water
- VCCLEAN Coolant System Cleaner
- VCTEST Coolant System Analysis
- Reduces equipment downtime and repair cost

- Compatible with any vapor control system

Mechanical VRU Parts

- Compressors
- Oil Coolers
- Instrumentation
- Automation / Electrical
- Liquid Removal Pumps
- Oxygen Analyzers
- Inlet Scrubbers

VRU and VCU Parts

- Carbon
- Detonation Arrestors
- Automation / Electrical
- Filters
- Gauges
- Heat Exchangers
- Pumps and Accessories
- Instrumentation
- Valves
- Fittings
- Strainers
- Meters

CEB Parts

- Igniters
- Thermocouples
- Insulation
- Burners
- Burner NIT replacement

Flare Parts

- Pilot Assemblies
- Combustion Air Blowers
- Complete Igniters and Replacement Heads
- Instrumentation
- Flow Meters
- Thermocouples
- Wiring Harnesses
- Spark Rods
- Pressure Gauges
- Pressure Regulators
- Ignition Exciters
- Ignition Transformers
- Relays, Fuses, Temperature Controllers
- Timers
- Complete Enclosures
